## Report Overview

This report contains information gathered through the Measurable Results Assessment (MRA; See Figure 1), a validated survey used annually to collect, analyze, and report on student, staff, family, and school-level outcomes. The MRA is an important tool for starting larger conversations about the school's growth in leadership, culture, and academics. For this reason, the scores within this report serve as a way to celebrate progress and inform decisions on where to effectively focus time and resources.
