

The top of the page features a blue and white graphic on the left with the text "AUDIO ENHANCEMENT" and a circular inset showing audio equipment. On the right, a photograph shows a smiling female teacher in a pink shirt interacting with two young students, one in a green shirt and another in a yellow shirt.

AUDIO ENHANCEMENT

Audio Solutions

Because hearing is essential to... student achievement

At Audio Enhancement, Inc., we are improving achievement, attention and on-task learning time. We're doing it with robust audio solutions that are proven to enhance student and teacher interactions and increase outcomes. We are also lowering teacher stress and absences. Sound too good to be true? It's not...it's happening in thousands of classrooms around the world.

Ensure Every Student Can Hear

It's simple really. If students can't hear the lesson, they can't learn or understand what is being taught. Providing classrooms with distributed sound solutions helps students hear the lesson from anywhere in the room. Research demonstrates that adding a sound system to classrooms can impact learning and improve test scores by 7-10%.*

Improve Attention and On-Task Learning

Distributing audio during classroom lessons helps to capture student attention and on-task learning.

Increase Student Participation

Providing an audio solution for students involves them in the lesson and provides a simple way for them to interact with the teacher and lesson content.

Improve Academic Success

Integrated audio solutions help with classroom management, fewer discipline issues and less stress for teachers and students overall.

"If you really want to level the playing field for every child, then Audio Enhancement is a necessity for every classroom."

Ron Clark

Teacher and Founder
Ron Clark Academy, GA

Audio Solutions

How Audio Solutions work

With solutions to distribute sound and provide hands-free instruction, Audio Enhancement's Audio Solutions give classrooms and teachers a robust system that can be customized to fit specific needs.

Speak

Wireless microphones provide hands free instruction and boost student confidence to speak up and participate in class.

Distribute

Revolutionary audio technology distributes sound throughout the classroom to amplifiers and speakers.

Hear

Powerful sound technology helps students hear anywhere in the classroom and supports dynamic multi-media lessons.

What's included

Teacher and Student Microphone

In addition to distributing voices, the teacher microphone can control the amplifier and initiate a silent alert signal.

Receiver

The hub of the sound solution, this receiver accepts and transmits sound signals to amplifiers and speakers.

Amplifier

Providing high-quality audio for teachers, students and multi-media, these powerful amplifiers provide classrooms with increased intelligibility.

For over 36 years, Audio Enhancement's ground-breaking audio solutions help meet the challenge of preparing students for success and empower teachers each and every day.
